William Gibson's Resume

About the Professional

As a programmer, coding for video games is nearest and dearest to my heart, but I've also experimented with 3D modeling and digital painting.

I'm always willing to learn, especially if it has something to do with science fiction or military technology.

Experience

Robotics Teams - Participated in team competitions in middle school and high school.

- Robotics sparked my passion for programming and engineering problems.

Assistant at a Repair Shop - Helped out at a now-defunct computer repair shop, disassembling old machines and working with Windows.

Education

Illinois Institute of Technology - Majoring in a bachelor's degree for Computer Science.

- Participated in AFROTC for a time and gained valuable leadership and teamwork skills.

Skills

- Fluent in C#, C, Python, and Javascript.

- Basic knowledge of HTML, CSS, and SQL.

- 3-D modeling in Blender and photo manipulation in Photoshop.

- Speaks Vietnamese.
